

# VAN ZIJLL LANGHOUT / CONTEMPORARY ART

Multiple Choice is an artist initiative, meant to be in constant flux, always changing its function. We make multiple things including, but certainly not limited to exhibitions, workshops, think tanks, collections, books, and multiples. Multiple Choice has been primarily focused on producing multiples that fit perfectly into an A4 sized cardboard box. In 2015, since being founded by Rumiko Hagiwara, Dina Danish Jean-Baptiste Maitre, multiples have been made by both Multiple Choice as well as by other artists that we commission.
